David Cook
137 North State
Ft. Green, Utah 84632

Dear Mr. Cook:

It has come to my attention that you have two wells located in the SE1/4 of Section 13, T14S, R2E, SLB&M. Mr. Jay Coombs indicated that when these wells are pumped his spring water stops.

In an attempt to analyze the priorities of the water rights in conflict the State Engineers' office searched their records to identify the water rights associated with the wells. We were unable to identify a water right for these wells.

I would appreciate your immediate attention to this matter. **Please contact this office no later than October 4, 1992**, to identify your water rights and work toward a solution to this problem.

Sincerely,

Kirk Forbush, P.E.
Regional Area Engineer
